

Total Station - Student Self Evaluation

Student _____ Agency _____

Please realistically indicate what you think your level of skill is in the following areas of Total Station use. Use a rating system of 1 to 5, with 1 as the lowest level and 5 as the highest level. This information will help the instructors decide what material to cover and whether to offer refresher training sessions.

Total Station Skills	Answer or Rating (1 - 5)
Have you had training or experience with total stations prior to US&R related use?	
Have you had total station training from any FEMA source? (Your task force, Regional Training or StS 1 or 2 training)	
Since that training have you trained or used a Task Force or a USACE total station?	
Can you open the case and identify all items in the case?	
Set-up over known point and level instrument?	
Access and verify Job and Variable Settings?	
Set up instrument and use as total station?	
Create a new Job and establish a new station?	
Locate points on a coordinate grid?	
Move Instrument and re-establish coordinate grid?	
Generate monitoring log?	
Properly re-place Instrument in the case?	

Anything that you would like us to cover in class:
